Assess Effectiveness Of A Workplace Psychosocial Risk Management Module

Protocol summary

Summary

Occupational Health activities are concerned with the prevention of ill health in employed populations. It covers five classes of hazards namely physical, chemical, biological, ergonomic and psychosocial hazards. Based on the spectrum of occupational health, the current research intends to draw on the effect of workplace psychosocial factors, for helping both employers and employees to reduce workplace psychosocial risk and manage those problems. There are many problems which are result of psychosocial factors that influencing staff health. This study is an attempt to develop procedures for coping with psychosocial risks at the place of work. Based on the objective of this study, the researcher assumes that training about psychosocial risks may reduce them and will be a practical, safe and economical method for conducting in company.

Scientific title

Assess Effectiveness Of A Workplace Psychosocial Risk Management Module

Public title

Effectiveness Of Training On Management Of Workplace Psychosocial Risks

Purpose

Health service research

Inclusion/Exclusion criteria

Inclusion criteria : Iranian; both males and females; Subjects older than 25 years of age; Have permanent access to a personal computer in the office; Full time employees. Exclusion criteria: Foreigners; Temporary contract workers; part time workers and apprenticeship; under 25 year sold

Age

From **25 years** old to **60 years** old

Gender

Both

Phase
N/A
Groups that have been masked
No information
Sample size
Target sample size: **248**
Randomization (investigator's opinion)
Randomized
Randomization description
Blinding (investigator's opinion)
Not blinded
Blinding description
Placebo
Not used
Assignment
Parallel
Other design features

Secondary Ids

empty

Ethics committees

1

Ethics committee
Name of ethics committee
Universiti Putra Malaysia
Street address
Malaysia
City
Serdang
Postal code
Approval date
2011-09-23, 1390/07/01
Ethics committee reference number
UPM/FPSK/PADS/T7-MJEtikaper/F01(JKK_OKT(10)05))

2

Ethics committee
Name of ethics committee
NARGAN Engineers & Constructors
Street address
Tehran
City
Tehran
Postal code
Approval date
2011-08-20, 1390/05/29
Ethics committee reference number
90-100/1705

Health conditions studied

1

Description of health condition studied
Workplace psychosocial risks
ICD-10 code
ICD-10 code description

Primary outcomes

1

Description
Psychosocial risks
Timepoint
Before intervention- 3 months after intervention
Method of measurement
HSE questionnaire

2

Description
Mental health
Timepoint
Before intervention- 3 months after intervention
Method of measurement
DASS

3

Description
Safety claimate
Timepoint
before intervention- 3 months after intervention
Method of measurement
SCAT

Secondary outcomes

empty

Intervention groups

1

Description
Training through 14 days email abut workplace relationships and stress at work
Category
Behavior

2

Description
One full face to face training about workplace relationships and stress at work
Category
Behavior

3

Description
One full day face to face training and 14 days email training about workplace relationships and stress work
Category
Behavior
