Health conditions studied**1****Description of health condition studied**

Anxiety

ICD-10 code

F41.1

ICD-10 code description

Generalized anxiety disorder

Primary outcomes**1****Description**

Anxiety

Timepoint

Before intervention - a day after the intervention (before the procedure)

Method of measurement

Spielberger standard questionnaire

Secondary outcomes**1****Description**

Satisfaction

Timepoint

After bronchoscopic

Method of measurement

Visual Analogue Scale measuring satisfaction

2**Description**

Level of tolerance

Timepoint

After the bronchoscopy

Method of measurement

4 item Likert scale

3**Description**

Comfort level

Timepoint

After the bronchoscopy

Method of measurement

Comfort level of the numerical scale (1 comfort lowest, 10 the highest level of comfort)

4

Description

Level of cooperation during bronchoscopy

Timepoint

After the bronchoscopy

Method of measurement

Numerical scale Level of cooperation (1 co lowest, 10 the highest Level of cooperation)

5

Description

Pain

Timepoint

After the bronchoscopy

Method of measurement

numeric pain scale (1 least amount of pain, 10 maximum pain)

Intervention groups

1

Description

Intervention group = received 30 minutes of nursing counseling program that includes training preparations in the days before bronchoscopy -training what done bronchoscopy- Basic skills training techniques to reduce anxiety

Category

Behavior

2

Description

Control group = received routine part of program
