

Clinical Trial Protocol

Iranian Registry of Clinical Trials

23 Jun 2026

Effect of an intervention based on I-Change model in comparison with existing health education methods on change of intention of women in utilizing preventive services of cancer (Cervical Cancer)

Protocol summary

Summary

Objective: Assess the effectiveness of a computer tailored intervention on encouraging women 30-75 in Iran to participate in preventive screening program of cervical cancer Type: Randomised Controlled Trial among women 30-75 in Tehran, main inclusion criteria is being sexually active and no history of cervical cancer, and main exclusion criteria is age <30 or >75 Sample size will be 300 in three groups, two for intervention and one for control. Case will randomly be allocated and study will be double blind. Participants will receive randomly intervention package which research team do not know about the content. Group A will receive available information about cervical cancer in national program, group B will receive tailored package and group C will not receive a package immediately, but after intervention phase will receive existing national package. Total duration of intervention and follow up will be 18 month, including 6 month enrollment and 12 month follow up. First outcome: change in behavior (making cervical cancer test or follow up) Second outcome: change in knowledge, attitude and plan of action

Health conditions studied

1

Description of health condition studied

Cervical Cancer

ICD-10 code

N87

ICD-10 code description

Dysplasia of cervix uteri

Primary outcomes

1

Description

change in behavior (making cervical cancer test or follow up)

Timepoint

6-12 Month after intervention

Method of measurement

questionnaire and observation

Secondary outcomes

1

Description

change in knowledge, attitude and plan of action

Timepoint

4wks after intervention

Method of measurement

questionnaire

Intervention groups

1

Description

Group A intervention: will receive PHC available package for cervical cancer screening

Category

Behavior

2

Description

Group B: will receive tailored intervention package for cervical cancer screening

Category

Behavior

3

Description

group C: Will not receive a package before finishing intervention in groups A and B, then for ethical reasons will receive PHC package All packages will have information about cervical cancer screening, centers for referral and hot line number for questions
