

# Clinical Trial Protocol

## Iranian Registry of Clinical Trials

07 Jun 2026

### Comparison between effects of Carbetocine and Syntometrin on postpartum hemorrhage prevention after cesarean section

#### Protocol summary

##### Summary

1- Objectives: Comparison between effects of Carbetocine and Syntometrin on postpartum hemorrhage prevention after cesarean section. 2- Design: Randomized single-blind clinical trial, without placebo control, single center trial recruitment, in the third Trial phase. 3- Setting, conducting and inclusion criteria: 90 pregnant women, candidate for primary cesarean section or experienced one with spinal anesthesia at Emam Ali hospital in Zahedan, are provided with explanations of methods for postpartum hemorrhage prevention after cesarean section. Then, the patients and their spouses fill out the consent forms. They are randomly assigned to two groups: 4- Intervention: The first group receives 30 units of oxytocin in 1 liter crystalloid, with 10cc/min rate, right after clamping the umbilical cord. Subsequently, they receive 30, 20 and 10 units of oxytocin IV infusion during the first 8 hours, second 8 hours and last 8 hours, respectively. The second group receives 0.5 ml Carbetocin IV directly, Equivalent to 50 microgram once, right after clamping the umbilical cord. 5- Exclusion criteria: patients with risk factors of PPH or other reason of PPH - except atonia - will exit trial. Also, presence of preeclampsia, hypotension, heart disease, and asthma will exclude a patient. 6- Main outcome: All patients are assessed 2,12, and 24 hours after delivery for uterine tonicity and blood pressure. 6 and 12 hours after delivery, hemoglobin is checked for estimation of postpartum hemorrhage. The two intervention groups are compared for the need of uterotonic drugs and the rate of side effects.

#### General information

##### Acronym

##### IRCT registration information

IRCT registration number: **IRCT2015050919644N1**

Registration date: **2015-05-09, 1394/02/19**

Registration timing: **registered\_while\_recruiting**

Last update:

Update count: **0**

##### Registration date

##### Recruitment status

**Recruitment complete**

##### Funding source

Vice Chancellor for research,zahedan university of medical science

##### Expected recruitment start date

2015-03-06, 1393/12/15

##### Expected recruitment end date

2015-05-10, 1394/02/20

##### Actual recruitment start date

empty

##### Actual recruitment end date

empty

##### Trial completion date

empty

##### Scientific title

Comparison between effects of Carbetocine and Syntometrin on postpartum hemorrhage prevention after cesarean section

##### Public title

Carbetocin versus Oxytocin for prevention of postpartum hemorrhage at cesarean section

## Purpose

Prevention

## Inclusion/Exclusion criteria

Inclusion criteria: Pregnant women with single pregnancy one previous cesarean section or primary cesarean and candidate for cesarean delivery & application of spinal anesthesia. 5- Exclusion criteria: Other reason of PPH except atonia; Presence of preeclampsia; hypotension; heart disease and asthma; Presence of risk factor of PPH such as uterine fibroid; previous myomectomy; placenta previa; past history of PPH; chorioamnionitis; fetal macrosomia and fetal malformations associated with polyhydramnios

## Age

No age limit

## Gender

Female

## Phase

3

## Groups that have been masked

No information

## Sample size

Target sample size: 90

## Randomization (investigator's opinion)

Randomized

## Randomization description

## Blinding (investigator's opinion)

Single blinded

## Blinding description

## Placebo

Not used

## Assignment

Parallel

## Other design features

## Secondary Ids

empty

## Ethics committees

### 1

#### Ethics committee

##### Name of ethics committee

Morality Committee of Zahedan University of Medical Sciences

##### Street address

Zahedan University of Medical Sciences, Daneshgah street, Zahedan

##### City

Zahedan

##### Postal code

#### Approval date

2014-08-03, 1393/05/12

#### Ethics committee reference number

6804

## Health conditions studied

### 1

#### Description of health condition studied

postpartum hemorrhage

#### ICD-10 code

Z39

#### ICD-10 code description

Postpartum care and examination

## Primary outcomes

### 1

#### Description

Hemoglobin level

#### Timepoint

Before and 6 and 12hours after cesarean delivery

#### Method of measurement

Hemoglobine assessment

## Secondary outcomes

### 1

#### Description

Uterine tone

#### Timepoint

2 and 12 and 24 hours after cesarean delivery

#### Method of measurement

Assessment of uterine tone

### 2

#### Description

Need to administration of uteronic drug

#### Timepoint

During 24 hours after cesarean delivery

#### Method of measurement

Dosage and amount of drug

### 3

#### Description

Adverse effects

#### Timepoint

During 24 hours after cesarean delivery

#### Method of measurement

Observation of adverse effects

## Intervention groups

### 1

#### Description

30 unite Syntometrine in 1 liter crystaloid 10cc /min after clamp of umbilical cord then 30 unite in 8 hours ,20 unite in 8 hours & then 10 unite in 8 hours later Syntometrine IV infusion

#### Category

Prevention

## 2

### Description

0.5 ml Carbetocin IV directly Equivalent 50 micro gram once after clamp of umbilical cord

### Category

Prevention

## Recruitment centers

### 1

#### Recruitment center

##### Name of recruitment center

Emam Ali hospital

##### Full name of responsible person

Dr Seyede Fatemeh Mahdavi Salimi

##### Street address

Emam Ali hospital, salamat street, Daneshgah street, Zahedan

##### City

Zahedan

## Sponsors / Funding sources

### 1

#### Sponsor

##### Name of organization / entity

Vice Chancellor for research, Zahedan University of Medical Science

##### Full name of responsible person

Dr Hoshang Rafigh Dost

##### Street address

Vice Chancellor for research, Zahedan University of Medical Sciences, Daneshgah street, Zahedan

##### City

Zahedan

##### Grant name

##### Grant code / Reference number

##### Is the source of funding the same sponsor organization/entity?

Yes

##### Title of funding source

Vice Chancellor for research, Zahedan University of Medical Science

##### Proportion provided by this source

100
