Health conditions studied

1

Description of health condition studied

Leukemia, pain, depression

ICD-10 code

C94.7,R52.

ICD-10 code description

Depressive episode,Other specified leukaemias,Pain, unspecified

Primary outcomes

1

Description

Depression

Timepoint

Before intervention,2 months after the intervention.

Method of measurement

CDS-A

2

Description

Pain

Timepoint

Before the intervention, two months after the intervention.

Method of measurement

McGill pain questionnaire

Secondary outcomes

1

Description

nothing

Timepoint

nothing

Method of measurement

nothing

Intervention groups

1

Description

control group did not receive any training.

Category

Behavior

2

Description
