The Effect Of Rhus Coriaria Capsul On Abnormal Uterin Bleeding (Menorrhagia) Referring To Selected Hospital

Protocol summary

Summary

The aim of this study is the effectiveness sumac capsule on blood loss in women with menorrhagia. This study is randomized controlled clinical trial (block) in hospitals Hazrat Zeinab (SA) and martyr Faghihi. A total of 100 women with menorrhagia will be randomly divided into two groups. The risk of menorrhagia of diagram (PBAC) Pictorial Blood Loss Assessment Chart used to be participants receive a score of 100 and above. 50 patients will take Tranxamic acid capsules, 500 mg 3 times a day from the first day until the seventh day and 50 patients will take sumac capsule daily (1gram) in addition to the amount of acid Tranxamic acid capsules. At the beginning of the patient to the study of the CBC, PT, PTT and fibrinogen level and serum iron deficiency anemia measured to monitor. At the end of the cycle ,the patients will referre for PBAC chart delivery, testing and delivery of the drug for three cycles until the impact of sumac capsule on the amount of bleeding patients to be monitored. With Using PBAC charts scores of the two groups will be calculated and compared.

Health conditions studied

1

Description of health condition studied

menorrhagia

ICD-10 code

N92.0

ICD-10 code description

Excessive and frequent menstruation with regular cycle

Primary outcomes

1

Description

Amount OF uterine bleeding

Timepoint

Before the intervention, one month after the intervention (at the end of the first menstrual cycle), second month, third month after menstruation and after menstruation cycle.

Method of measurement

Pictorial Blood Loss Assessment Chart

Secondary outcomes

1

Description

Anemia

Timepoint

Before the intervention, one month after the end of the cycle, the second month after the third month after menstruation and menstrual cycle

Method of measurement

PT.PTT.CBC,Fibrinogen Level,Serum Iron

Intervention groups

1

Description

The intervention group:the women will be received 1 gram of sumac capsules and Tranxamic acid capsule contain 500 mg, 3 times in a day, from the first day until the seventh menstrual cycle for 3 cycles.

Category

Treatment - Drugs

2

Description

Control group: the women in control group will be received Tranxamic acid capsule contain 500 mg, 3 times in a day, from the first day until the seventh cycle period for 3 cycles

Category

Treatment - Drugs
