Iranian Registry of Clinical Trials

21 Jun 2026

Study of The effect of educational-based empowerment program on the quality of nursing services in dialysis department

Protocol summary

Study aim

Determination of the effect of educational-based empowerment program on the quality of nursing services in dialysis department of Valiasr Hospital in Zanzan

Design

Semi-experimental study of clinical trial type, pre-test and post-test in two stages before and after intervention

Settings and conduct

The research community in this study included patients admitted to the Valiasr dialect of Zanzan and nurses in this department. In the first stage, before the implementation of the empowerment plan, the SERVQUAL questionnaire is distributed among patients and nurses who have criteria for entering the study. After collecting information in the first stage, the data are analyzed and then, based on the results of the first stage data, according to the SERVQUAL questionnaire and based on different dimensions of this model, nursing empowerment sessions are designed and implemented. To make in the second phase of the study, the SERVQUAL questionnaire is distributed again within one month among the same patients and nurses. The results of the first and second stages of the research are compared with each other.

Participants/Inclusion and exclusion criteria

inclusion criteria: Be alert, able to answer questions spontaneously or by the researcher, have been dialysed at least three times per week for at least one month, during the past three months, no other intervention has been received by other researchers, and the consent Participate in research. Exclusion criteria: Reduced consciousness, To withdraw from the research, The doctor orders the discharge from the dialysis unit, Die

Intervention groups

The study is pre- and post-test and a nursing-based empowerment program is implemented.

Main outcome variables

Quality of nursing services based on the dimensions of the SERVQUAL questionnaire

Title and more details about the data/document

All data can be shared after unrecognizable people.

When the data will become available and for how long

Starting the course 8 months after printing results

To whom data/document is available

Only for scholars and students working in academic and scientific institutions

Under which criteria data/document could be used

Students and researchers in writing papers and dissertations can use all parts of the documentation by sending their own email and introducing themselves and their universities and obtaining permission.

From where data/document is obtainable

By e-mail address

What processes are involved for a request to access data/document

After sending the email and introducing yourself and your university and obtaining permission, one month later the documentation will be sent
