Scientific title
Determining effect of self-caring using Tele-Nursing on major thalassemia teenagers self-efficacy

Public title
The effect of self-caring using Tele-Nursing on thalassemia teenagers self-efficacy

Purpose
Supportive

Inclusion/Exclusion criteria
Inclusion criteria:
Indices for entering and exiting research include: tending to participate in the study and telephone teaching
Having active file records in thalassemia section of the hospital
Lack of serious disorder in parents and another family members
Having cell phone personally or in family or having ability for installing Telegram application. Lack of behavioral, mental, hearing and speech disorders according to the medical records and lack of another same as diabetic and cardiac disease
Teenager disease lasting more than a year
Exclusion criteria:

Age
From **13 years** old to **18 years** old

Gender
Both

Phase
N/A

Groups that have been masked
No information

Sample size
Target sample size: **30**
