The effect of home-based training on the incidence of pressure ulcer and family caregiver`s of burden patients discharged with stroke

Protocol summary

Study aim

Determining the effect of home-centered education on family caregivers' caring burden and incidence of bed sore in patients with discharge stroke

Design

In this study, 70 patients with a stroke who have entered the study are randomly divided into two groups of intervention and control and each participant is given a special code.

Settings and conduct

A study on stroke patients and their carers in Imam Ali hospital in Zahedan.

Participants/Inclusion and exclusion criteria

Patient login criteria: 1. The patient has no symptoms of bed sore or skin disorders at the start of the study. 2. Patients with a Brad's benchmark score of less than 14 in their baseline scores. 3- Stay in Zahedan. 4- Age 45 to 75 years. Patient exit criteria: 1- Readmission or death of the patient during the study period. 2- To take the patient to the care centers. 3- Skin disease during the study. 4. Having suspicious wounds. Family Career Entry Criterion: 1. Age over 18 years. 2. Be careful of the main responsibility of the patient. 3. Having reading and writing skills. 4- Residing in the city of Zahedan. 5. The absence of other family members, the maintenance of a mental illness or elderly in the family. Family Care Exit Criteria: 1- Absence of more than 1 session of training sessions. 2- The occurrence of any burden stress incident for the caregiver during the study.

Intervention groups

In the control group, the questionnaires were then taken to the patient's address and call number again. After 12 weeks, no intervention was given to the patient and the caregiver to receive the post-test. The intervention group filled out the questionnaire from the caregiver and the patient. Then the intervention was given as 3 sessions of 1 week interval. In the case of stroke, subcutaneous wound, anxiety control, after 12 weeks of post-test.

Main outcome variables

Prevent bed sores and attendant care burden
