Clinical Trial Protocol
Iranian Registry of Clinical Trials

19 Jun 2026

Determining the effectiveness of, mindfulness-based cognitive therapy and expressive writing on the reduction of trauma-induced experiences

Protocol summary

Study aim
Determining the effectiveness of mindfulness-based cognitive therapy and expressive writing on the reduction of post traumatic stress symptoms and experiential avoidance.

Design
Clinical trials with control group, Parallel Group, non random groups

Settings and conduct
Participants will first complete the informed consent forms for participation. Then, they will be examined based on the inclusion criteria.Then, participants will be assigned into 3 groups(7 in each group).Before and after the interventions the study variables will be assessed using the questionnaires. The follow-up will be one months after the end of the interventions. The interventions will be provided in neighborhood houses and health centers. The control participants will also receive the interventions after the follow-up.

Participants/Inclusion and exclusion criteria
The study sample will be people who show mild to moderate symptoms of post traumatic stress disorder. Inclusion Criteria: 1- 18 years of age and above, 2- having experienced at least one traumatic event, 3- experiencing mild to severe signs and symptoms (indicated by clinical interview and the PTSD Checklist for DSM-5 (PCL-5)), 3- not diagnosed with post-traumatic stress disorder (PTSD), major depressive disorder (MDD), or psychotic symptoms, 4- not receiving pharmacological treatment for psychological disorders. Exclusion Criteria: 1- Suffering from conditions preventing them from participation, 2- receiving pharmacological treatment at the time of the study, 3- diagnosed with major depressive disorder (MDD) (with a score above 28 on the Beck Depression Inventory (BDI)), 4- not interested in continuing participation in the study.

Intervention groups
1- Mindfulness-Based Cognitive Therapy group 2- expressive writing group 3- Control group

Main outcome variables
Post Traumatic Stress Symptoms, Mindfulness, Experiential Avoidance, Depression, General health

Health conditions studied

1

Description of health condition studied

Post Traumatic Stress Symptoms

ICD-10 code

F43.9

ICD-10 code description

Reaction to severe stress, unspecified

Primary outcomes

1

Description

Score in the post-traumatic stress disorder checklist for Diagnostic and Statistical Manual of Mental Disorders, 5th Edition

Timepoint

Before the intervention, after the intervention, one month after the end of the intervention

Method of measurement

Post-traumatic stress disorder checklist for Diagnostic and Statistical Manual of Mental Disorders, 5th Edition

2

Description

Score in the Multidimensional Experiential Avoidance Questionnaire

Timepoint

Before the intervention, after the intervention, one month after the end of the intervention

Method of measurement

Multidimensional Experiential Avoidance Questionnaire

3

Description

Score in the Five Facet Mindfulness Questionnaire

Timepoint

Before the intervention, after the intervention, one month after the end of the intervention

Method of measurement

Five Facet Mindfulness Questionnaire

Secondary outcomes

1

Description
Score in the Beck Depression Inventory-II
Timepoint
Before the intervention, after the intervention, one month after the end of the intervention
Method of measurement
Beck Depression Inventory-II

2

Description
Score in the General Health Questionnaire-28
Timepoint
Before the intervention, after the intervention, one month after the end of the intervention
Method of measurement
General Health Questionnaire-28

Intervention groups

1

Description
Intervention group 1: Mindfulness-Based Cognitive Therapy (MBCT) group (8 sessions of group MBCT; groups with 7 members)
Category
Treatment - Other

2

Description
Intervention group 2: expressive writing (EW) group (4 sessions of group therapy; groups with 7 members)
Category
Treatment - Other

3

Description
Control group: Control group
Category
Treatment - Other
