### The effect of Topiramate in improvement of clinical status of migraineurs according to HIT6 and MIDAS questionnaires

#### Protocol summary

##### Summary

This is a clinical trial and the aim of this study was evaluation of Topiramate effect in improvement of clinical status of migraine patients. 89 patients with these criteria were enrolled: diagnosed for migraine based on the International Headache Society (IHS) criteria by a neurologist, having headache not more than 14 days per month, a history of 3 to 12 attacks. The exclusion criteria were: non-migraine headaches such as tension and sinus headaches, severe depression and a history of medical diet failure. Topiramate 25 mg/d will be prescribed for them in the first week and will be increased 25 mg/d weekly up to 100 mg/d and the maximum dose continued for 3 months, then HIT6 (Headache impact test 6) and MIDAS (Migraine Disability Assessment Scale) were refilled for patients to estimate the grade of migraine headache.

## Health conditions studied

### 1

#### Description of health condition studied

Migraine

#### ICD-10 code

G43

#### ICD-10 code description

Migraine

## Primary outcomes

### 1

#### Description

The clinical status of patient's migraine according to HIT6 questionnaire

#### Timepoint

beginning and end of the study (after 3 months)

#### Method of measurement

history and physical exam

### 2

#### Description

The clinical status of patient's migraine according to MIDAS questionnaire

#### Timepoint

beginning and end of the study (after 3 months)

#### Method of measurement

history and physical exam

## Secondary outcomes

### 1

#### Description

side effects of Topiramate in patients

#### Timepoint

end of the study (after 3 months)

#### Method of measurement

history and physical exam

## Intervention groups

### 1

#### Description

Topiramate 25 mg/d will be prescribed for the patients in the first week and will be increased 25 mg/d weekly (up to 100 mg/d) and the maximum dose will be continued for 3 months

#### Category

Treatment - Drugs
