Health conditions studied

1

Description of health condition studied

- Unexplained infertility

ICD-10 code

N97.9

ICD-10 code description

Female linfertility, Unspecified

Primary outcomes

1

Description

- Quality and number of ovum and emberyo have received in each IVF cycle

Timepoint

- On day of ovum pick up and emberyo insercion (IVF)

Method of measurement

- Measuring number and quality of ovumes on the day of pick up in lab by pathologist under microscope (GV , MI , MII) and quality of emberyo also by the same pathologist due to kind of cell division (Grade I , II , III , IV)

Secondary outcomes

1

Description

Clinical pregnancy or misscariage

Timepoint

4 – 6 weeks after emberyo transferring

Method of measurement

Serum BHCG and TVS

Intervention groups

1

Description

In The Main Group The paitents eats one ca of vitaminE or placebo (400mg) one per day from the day of base sono till 2 month

Category

Treatment - Drugs

2

Description

In The control group The Patients eats one ca of vitaminE or placebo (400mg) one per day from the day of base sono till 2 month

Category

Treatment - Drugs
