Health conditions studied

1

Description of health condition studied

infertility

ICD-10 code

N97

ICD-10 code description

Female Infertility

Primary outcomes

1

Description

Successful implantation

Timepoint

Two weeks after embryo transfer

Method of measurement

Increased hormone levels in the blood β HCG

Secondary outcomes

1

Description

The number and quality of oocytes and embryos, embryo
transfer quality and results β HCG

Timepoint

Two weeks after embryo transfer

Method of measurement

Increased β HCG

Intervention groups

1

Description

In the intervention group Ritodrine pill 10mg, BID will be
administered from the day before embryo transfer and
continued for 6 days.

Category

Treatment - Drugs

2

Description

In control group no intervention will be done.

Category

Treatment - Drugs
