Health conditions studied**1****Description of health condition studied**

anxiety

ICD-10 code

F40

ICD-10 code description

Specific (isolated) phobias

Primary outcomes**1****Description**

anxiety

Timepoint

In the waiting room, before anesthesia, before surgery, after surgery

Method of measurement

blood pressure, MmHg, by using brachial pressure, heart rate, pulses per minute by pulse oximeter, number of respiration; using objective observation by the number of breaths per minute

Secondary outcomes

empty

Intervention groups**1****Description**

for case group ,25 MI (equal 5 drop) of orange essence is poured in 5 Lit cold vapor device and before coming of patient, the odor is distributed in the air. in the whole of therapy session (in waiting & surgery room), the odor is distributing.

Category

Other

2**Description**

for control group :without odor distribution, therapy session is done .
